Open the MOD file with BLCMM at the bottom left, check the "Offline" saves box (preferably in a new file) FAQ General mods FAQ This is an error on the coding side of the gearbox, the aquamarine snipers technically do not exist inside Outside Hotfix For this mistake can be ignored safely. You can only run a lot of hotfix at once. First first, make sure that other mod mods that include hotfixes (for example going to the optionals category and open the change you want to deselect the current form and check the optional module save the UCP 1.13 How can I uninstall the community patch? Start Borderlands and go to the main menu, press the console key and enter Exec modname.txt without the quote symbols (if the mod is not a.txt, you can leave the file extension off) if the console does not show errors other than gd_aster_ weapons not recognized. snipers.sr maliwan 4 aquamarine: weappartlistcollectiondefinition_306or something similar involving aquamarine or chat not showing * username * says: exec modname.txt, everything worked! if you are on mac / linux, take a look at this guide 1.3 How can I install / uninstall BLCMM? Make sure you enable "Console and Command Set" and choose a console key. 2.4 How do I do the exhaust code with the filter tool? 1.14 Patch Meta does not work / I am getting two error lines that say something with transient.Spar. KServiceConfiguration 6. 1.15 even after all The UCP does not work properly. You also need capricious packages or disable them in the enemy randomizer with the filter tool, see here Final notes: enemy Randomizer requires a pc at half god because loads each game map at once. This will not more! a problem since BLCMM Á distributed as an EXE file, but in case that happens, be sure to install Java Runtime environment for your system. You can also type in exec patch.txt.txt if you can't worry about fixing the problem. Open BLCMM. 1.21 Can I use mod without UCP? Available on Nexus For information about how to use these modes, see Running Mods. Just don't run it when you get in the game and you're okay. The UCP uses skin lootpools to add ÁnewA" loot to the game and happens to use Zer0. The lowest mod' in the loading will overwrite the highest mod' in loading order: ~) 1.23 Suddenly I have random items in my inventory (e.g. a Pimpel) without even doing the Pirate DLC. Also make sure you have not saved UCP as patch.txt.txt (there's happens if you don't have file extensions enabled but you still have called the patch.txt files instead of ÁpatchÁ). 3.3 Where I can find Randomizer files? In the navigation bar, select ÁFileÁ and ÁOpen FileÁ and choose the mode. Primarily you will be it, but you need to join all the mods that have hotfixes within them. So, if you have merged your mods into UCP and saved them to patch.txt, run patch.txt. They are not made to work in coop, they load all the maps of the game at the same time and this Á extremely challenging. Make sure you have UCP in the right folder (Right click Borderlands 2 on Steam -> Properties -> Local Files -> Browse Local FilesÁ @ -> Binari (GOES IN QUI FILE). You're playing Zer0 and your hotfixes aren't working. Press "ApplyÁ and your game Á is now exhaustive! Put the mod file in your Borderlands 2 Binaries folder (SteamLibrary\steamapps\common\Borderlands 2\Binaries), or save it there using BLCMM shortcuts. 1.4 I cannot run BLCMM regardless of what I do.
